## Events

### New Year's Day Party

4 to 9 pm, Jan 1

low-key affair – we are still recovering from our 10<sup>th</sup> Anniversary in Ballard Party a few weeks ago, but we HAVE to continue the tradition of our New Year's Day party. We'll have light snacks and beverages. Please feel free to contribute some comestibles, as well.

### History Redux

Revisionist History Study Group

January 19, 7 – 8:30 pm

Free for members, \$5 for non-members.

January's book is *Uriel's Machine* by Christopher Knight and Robert Lomas,

The authors look at the evidence of how our ancestors could have developed and used the advanced astrological structures in megalithic sites around the world.

People from this month's class borrowed the two copies our Library has, so if you don't have it, you can buy it used on Amazon for \$4 including postage

As always, it is not necessary to have read the book to attend the class – those of us who have read it will recall what we can of the book – it's a great way to remember and reinforce material, and a good way to get the information, if you haven't had time to do the reading or to finish the whole book.

### Tarot Through Jungian Eyes

Classes start up again Wednesday, Jan 7

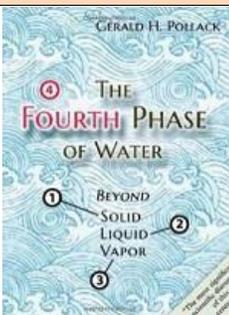

7 pm to 9 pm,

\$7 (half goes to the Library)

All experience levels are welcome and appropriate.

## [MONARCHIA: The Aurora of the Philosophers Magic Emblems and Prophecies of Paracelsus](#)

From the Ouroboros website:

Paracelsus' unflinching pursuit of Hermetic praxis and his dogged criticism of sophists and physicians alike brought infamy upon him. These two Paracelsian texts present an engaging view into the world of a Renaissance alchemist. The *Aurora of the Philosophers* has long been considered a classic among his texts and his *Prophecies* are unforgiving in their visionary explication and are illustrated by 32 emblematic woodcuts.

## [.The Octopus Deception](#)

In this timely political thriller, CIA special agent Curtis Fitzgerald, scholar Simone Casoloro, and historian Michael Asbury, must race against the clock to find trillions of dollars worth of stolen funds to prevent global economic collapse.
